Hike 9-10 miles to W S Carpenter Newark  
Leader: Kay Way

12-12-82 Elkton to North East, Md. 9-10 miles. Meet  
at 10 at Routes 40 & 279 (Newark-Elkton Rd)  
Leader: Turner Darden

#### Trail Section Reports

Turner - John Wriston will be responsible for Iron Hill to Elkton section  
Turner is working on getting Elkton to North East section off the road  
Problem exists getting across Principio River  
Need to investigate method of warning hikers at RR crossing

Ron - - Ron will investigate source for "router" to make trail signs  
Still awaits final word from lawyers on hold-harmless agreements  
No recent activity on Riceville - North section

P. Boyle Glatfelter & Pa. Power & Light agreement still delayed whilst we await  
legal word on hold harmless clause; Pat will follow up

Trail In Western Pennsylvania (Scout Chuck Shaffer) cannot be incorporated into  
M-D TS unless responsible local group can be found to supervise trail  
building and maintainance over the long term.  
Dennis Nurkiewicz of Penn State University (Fayette Campus) is trying to  
establish such a group. Ultimate goal here is trail from Ohio River to  
C & O Canal Trail.

P. Boyle indicates that he has consulted a printer, paid appropriate mailing fees  
(see above), has all trail guide data on hand and will begin writing "this week".

Dick Tobias wants to plan future trail maintainance workshop, hopefully with Bob  
Proudman and would like to get copy of John Gall's version of how rocks proliferate  
on Pennsylvania trails.

A nominating committee met after the regular meeting to prepare a slate of new  
officers for such time as same was needed.

Mary L. Bleecker, Secretary
